The English MC, **Brother Culture**, from Brixton has collaborated once again with the Swiss music production label **Kinyama Sounds** to produce a new **7-track EP** called « **City of Vibes** ». The EP has unique reggae, ska and dub flavours and will be released on October 24th, 2011.

Brother Culture and Kinyama Sounds met for the first time in 2009 thanks to **Flex** from Flexitime Records. They worked on two tracks released on Kinyama's first compilation called « **Reggae Dishes** ».

The track « **Spiritually Equipped** » has pleased a wide audience and is still « selected » by sound systems in Europe. Its music video was shot in Brixton in 2010.

The brand new EP « **City of Vibes** » confirms **Brother Culture's** attachment to the **deejay style**, as well as **U-Roy** or **Brigadier Jerry**, and also reveals attractive **melodies** from the MC.

The « riddims » (instrumentals), composed by Stan and Niko from the label Kinyama Sounds, are inspired by **ska**, **reggae** and **dub**, and feature a warm and contemporary sound.
